

Hello Mr. ŠINÁGL,

If you would sir please post a copy of this letter on your website and forward a copy to Mr. Jakoubek in Ohio. I'm writing to you in regards to my mistreatment by members of the Kongress police on the day of my arrest March 8, 2011, and the so-called investigation by there Internal Affairs Dept the British Embassy and the Czech Ministry of Foreign Affairs. Firstly as i've stated in the past the so-called investigation is Faked/Fabricated there never was any and the above mentioned are fully aware of it as well as my Attorney to which i might add has done nothing in the way of looking into it which clearly shows he is fully aware and after multiple requests by me for him to return to me the Internal Affairs Reports that were sent to me by them when i was in PANKRAC prison in August 2011 also shows he is aiding the above mentioned to conceal a major felony crime perpetrated against me! Also through conversations with a friend of mine here in valdice Mr. Ševjck who is a former geologist and an Australian citizen and a very intelligent man whom i might add does legal work for people here with the efficiency of an attorney, and who has been wrongfully imprisoned himself for 9 years for tax evasion, told me through his experience with embassys and the Czech Ministry of Foreign Affairs investigations are launched through the Ministry to sweep wrongdoing and criminal acts perpetrated against foreign nationals under the rug. And in my view this is clearly the case as the embassys won't name names of anyone, and in a letter written to me by Ms. Georgina Matheson of the British Embassy in regards to my question to her (who at the Czech Ministry of Foreign Affairs dealt with and handled my case? she responded (The Czech Ministry of Foreign Affairs is not prepared to release the name of the person). And its also obvious the embassys both American and British are trying to twist and confuse the issue and even my words also Ms. Joyce W. Naude at the U.S. State Dept. Mr. Ševjck also stated there's no doubt the U.S. State Dept knows full well the so-called investigation was Faked! And i believe this 100% myself, and footdragging and painfully slow investigation by them no answers is intentional!

Best Regards
